

ROUYN-NORANDA
VILLE DE
SENSATIONS!

Right in the urban heart of Abitibi-Temiscamingue, Rouyn-Noranda's beat is pounding with the rhythm of a creative society both in art and collective rejoicing. Its audacity was pushed all the way into the production of an International Cinema Festival, a genuine annual fusion of creative energy and human warmth. Just like the fireworks from *Osisko en lumières*, arts burst and sweep you through a swirl of events taking place all year round.

Rouyn-Noranda's patrimony has a startling history relating touching stories about immigrants moving in to stay. Polish, Italians, Germans, Yugoslavians, Ukrainians have left their mark which is still present in the town's cultural portrait.

As a business center, Rouyn-Noranda offers a dynamic commercial basin answering contemporary needs in consuming matters such as goods and services. The Abitibi-Temiscamingue University of Quebec spreads its ramifications in the whole region, ministering knowledge and progress in every one of its activity field.

Near the downtown area, vacationers, wildlife observers, hikers and explorers have the privilege of finding themselves in a curbed nature with hills and lakes, grand glaciers being passengers and the reason for shaping these reliefs.

You will be amused, pampered, coddled, stunned... enchanted. In Rouyn-Noranda, you will discover the definition of words such as warmth and welcome!
